BIOGRAPHY

Gorillaz was created in 1998 in London by musician Damon Albarn and artist Jamie Hewlett. Instead of posing for photos, the band exists as four animated characters: 2D (vocals and keyboards), Murdoc Niccals (bass), Noodle (guitar) and Russel Hobbs (drums).

Their self-titled debut album arrived in 2001 and included “Clint Eastwood”. Demon Days (2005) and the hit “Feel Good Inc.” turned them into global stars, and in 2006 Guinness World Records named them the most successful virtual band.

Collaboration is part of the band’s identity. Over the years, Gorillaz have recorded with artists from many different worlds, including De La Soul, Snoop Dogg, Lou Reed, Tame Impala and Bad Bunny.
